

Annual Report – Regional District Fire Managers Committee

May 2008

The Regional District Fire Managers have been meeting since June 2005. We have round table discussion on a variety of topics.

Some of the topics discussed are fire fighter safety, operational guidelines, purchasing policies, staffing and recruitment, mutual aid, standardization (OG's and Equipment) sharing what's working or not in our individual regions.

The group continues to be a valuable resource to those that attend for the sharing of information.

The notes taken at the 2007 Conference meeting are posted to the FCABC Sharepoint site for information.

Respectfully submitted,

Daniel J. Derby
Protective Services Manager
Cowichan Valley Regional District
